**CALLIGRAPHY & HANDWRITING
COMPETITION**

INDEPENDENCE DAY

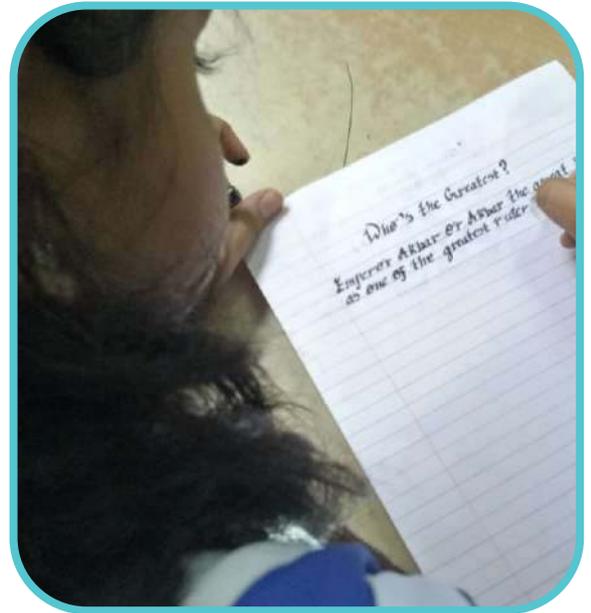

CALLIGRAPHY & HANDWRITING COMPETITION

Cast your mind back to the most recent thing that you have hand-written. Can't remember? Well, you are not alone. In this digital age, there are very few instances where we happen to use our writing pads and pens. But does writing by hand and handwriting still matter? Well, absolutely.

A child would never know what an 'A' is unless he/she has physically scribbled it in their books several times.

With the increase in technology, students' handwriting is seeing a downward trend and we, at S. E. International School understand this. The Calligraphy & Handwriting Competition held for Std. I to Std. X on 20th August, 2018, was for this very reason.

It helps children to keep up with the traditional methods of learning and development. Because we can never forget that the pen is mightier than the keyboard.

INDEPENDENCE DAY

15th August is a date that makes every Indian go back in time and recollect the innumerable sacrifices that our freedom fighters and leaders made to see our land free from the British Raj. A date that is celebrated with great pomp and pride.

S.E. International School brought in the celebrations with the unfurling of our National flag as the students unanimously sang the National Anthem.

The day was planned with various cultural programs with patriotism being the central theme. Our secondary section students, Disha Rathod, Kavya Kawedia and Laxman Desai, spoke on topics of national interest with great enthusiasm.

Our Principal, Mrs. Jaya Kunder, shared her thoughts on selflessness and its importance. She further made the students vow to be selfless henceforth in every action of theirs. Our Director, Mr. Mahesh Desai spoke about the Indian armed forces which made us realize the value of the real heroes.

INDEPENDENCE DAY
